EXPERIENCE   02

2022.01 - Present

Mink agency

An understanding of front-end development, balancing the needs of modern web design, user experience, and technical implementation.
Experience developing responsive web platforms and custom websites from scratch using PHP, HTML, CSS, and JavaScript.
Experience building dynamic content with WordPress, utilizing Elementor and ACF, as well as other CMS platforms like Webflow and Wix.
An understanding of animation, including expertise with GSAP, and a strong foundation in layout, typography, and visual hierarchy.

2019.09 - 2021-12

Tamvice

Co-founder of Tamvice, a startup launched in Istanbul during COVID-19.
I worked as a developer, animator, and designer, collaborating with creative friends on various projects.
Though Tamvice is no longer active, it was a great experience in combining design and development.
